Statement of Purpose: The adoption by reference of these revisions to the Federal Occupational Safety and Health Standards will serve to update Connecticut Occupational Safety and Health Standards in accordance with Section 31-372 of the Connecticut General Statutes. On April 11, 2014 the federal Occupational Safety and Health Administration (OSHA) published notification of its modifications to the Electric Power Generation, Transmission, and Distribution: Electrical Protective Equipment Standard, which will be effective in private sector general industry employment on July 10, 2014.

Conn. Gen. Stat. 31-372 requires, as an element of Connecticut's approved Public Sector-Only State Plan, that the Department of Labor's Occupational Safety and Health Division (CONN-OSHA) adopt all occupational health and safety standards, amendments or changes adopted or recognized by the United States Secretary of Labor under the authority of the Occupational Safety and Health Act of 1970.

These revisions modify the Electric Power Generation, Transmission, and Distribution: Electrical Protective Equipment Standard, which has not been modified since 1972, to make it more consistent with the general industry standard and bring the standard fully up to date.

All interested parties who wish to submit data, views, or arguments may do so in writing within thirty (30) days following publication of this notice. Any such written material should be directed to:
